

Adoption of EM Technology in Cotton and Other Crop Based Enterprises in America

J. M. Phillips

Technical Coordinator, EM Technologies, Tucson, AR, USA

***Abstract:** EM Technology, a concept pursued by EM Technologies, Tucson, Arizona is being widely adopted by many large scale crop based commercial units in the United States of America. The rate of adoption has expanded considerably in the recent past with widespread acceptance of the technology. This presentation highlights this program of work and the basis of research and development for the use of EM. Experiences with large scale production of many food crops will be presented to exemplify the adoption of EM Technology in the USA.*
